

## HISTORIC OLD BIBLE

Containing Autograph of President Wilson's Grandfather.

Mr. Ed C. Peyton, of this city, has in his possession a Bible presented to him 58 years ago, that contains an autograph inscription by Rev. Thos. Woodrow, grandfather of the President of the United States.

Mr. Peyton was at the time a pupil in the Presbyterian church at Nicholasville, Ky., and the book was presented to him by the Superintendent. It was published by the American Bible Society in 1857 and is five inches long, three and a half inches wide and one and a half inches thick. It was originally fastened with a brass clasp connecting the covers, but the clasp has been broken off. The book is in good condition otherwise. On one occasion it was stolen from Mr. Peyton, but afterward found in the possession of a negro and recovered.

On the fly leaf in front is this endorsement:

Presented to Master Edward Peyton for committing to memory the short catechism May 14, 1857.

J. A. BROGINS, Supt. Nicholasville, Ky.

On the inside of the front cover, written in a bold, rugged hand is this injunction and underneath the name appears a verse in Greek with the translation below it as here given:

Dear Edward:

Read the holy Scriptures with attention, pray to God or his Holy Spirit that you may rightly understand and faithfully practice what you read. THOS. WOODROW.

"From a child thou has known the holy writing." PAUL.

Rev. Thos. Woodrow was pastor of the Presbyterian church at the time.

Mr. Peyton was for many years connected with the Western Kentucky State Hospital, but, owing to impaired health he has retired from active work and resides in Hopkinsville. It goes without the saying that he is a strong Woodrow Wilson Democrat.

### Revealed In a Dream.

J. T. McFarlands, of Waco, Tex., dreamed that he saw his daughter, Mrs. Stella Laird, who had disappeared from home five days before on the streets of Fort Worth. He immediately went to that city and found her walking on a crowded street just as he had dreamed, and she had on 50 cents with her. This is the third time she has disappeared, and each time her father has found her by dreaming of the exact place where she was.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## BRITISH ADOPT STRATEGY

Collier Took Place of Trojan Horse in Landing First Forces on Dardanelles.

Dardanelles, via Constantinople.—History has duplicated itself, for by a ruse as ingenious as the wooden horse, which gave the crafty Greeks entrance into the city of Troy, the British succeeded in getting their first landing party ashore for the land operations against the Dardanelles. On the day preceding the landing the Turkish patrols noticed a huge collier, her decks piled high with coal, drifting in apparent helplessness toward the shoals lining the shore near the plains of Troy.

Finally the big boat struck bottom, and in twilight which was falling the crew was seen to take to their boats and row hastily toward the sea, where other ships were evidently cruising. Feeling certain that the stranded vessel would be safe for the night, no attempt was made by the Turks to board her, but when the patrols approached again in the morning, they were met by a sharp fire from 2,500 British troops, strongly entrenched and supported by a battery of field artillery. These troops had landed during the night from the apparent derelict, where they had been concealed below decks.

Then the mist off shore rose and disclosed a long line of transports, from which troops were pouring into small boats, which, under cover of the landing force, reached the beach with comparatively few casualties.

The Turks summoned reinforcements with feverish haste, and for a time the small landing detachment was in deadly peril of extinction, but their position was too strong to be taken by assault, and when the Turkish batteries got into action enough troops had been safely landed to consolidate the position won by the strategic ruse of the colliers' human freight.

### Col. Weissinger Dead.

Col. Harry Weissinger, one of the wealthiest and most prominent citizens of Kentucky, died of angina pectoris in Louisville Monday. He left the schoolroom to become one of "Morgan's Men" and was a gallant soldier. He made a fortune in the tobacco business. One of Col. Weissinger's eccentricities was his great preference for red neckties. On all occasions he wore a brilliant red necktie. In fact, those who knew him well cannot remember when he wore any other color. Col. Weissinger was rated as one of the wealthiest men in Louisville.

### Left Over.

"Robert," said his mother, "what mischief have you been up to now? I can tell by the look in your eyes that you have been naughty." "Oh," replied Robert, "that's part of the look left over from the last time I was naughty."

Miss Jolivet, who was among the survivors taken to Queenstown, said she and Mr. Frohman were standing on deck as the Lusitania heeled over. They decided not to trust themselves to lifeboats, although Mr. Frohman believed the ship was doomed. It was after reaching this decision that he declared he had no fear of death.
